# Introduction

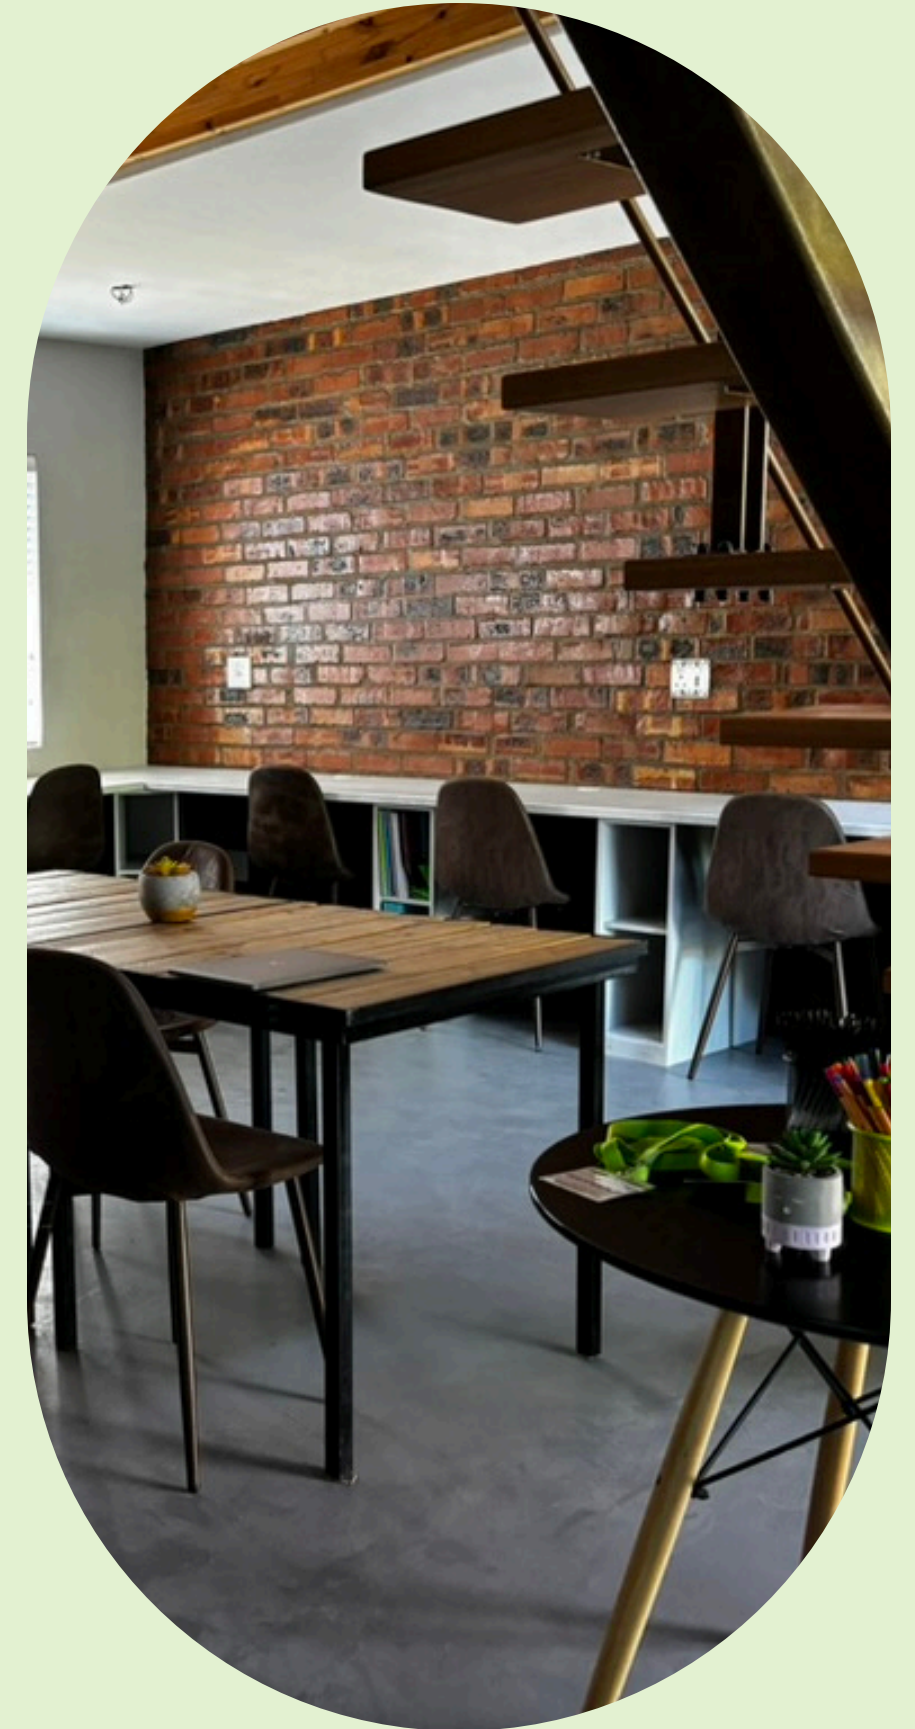

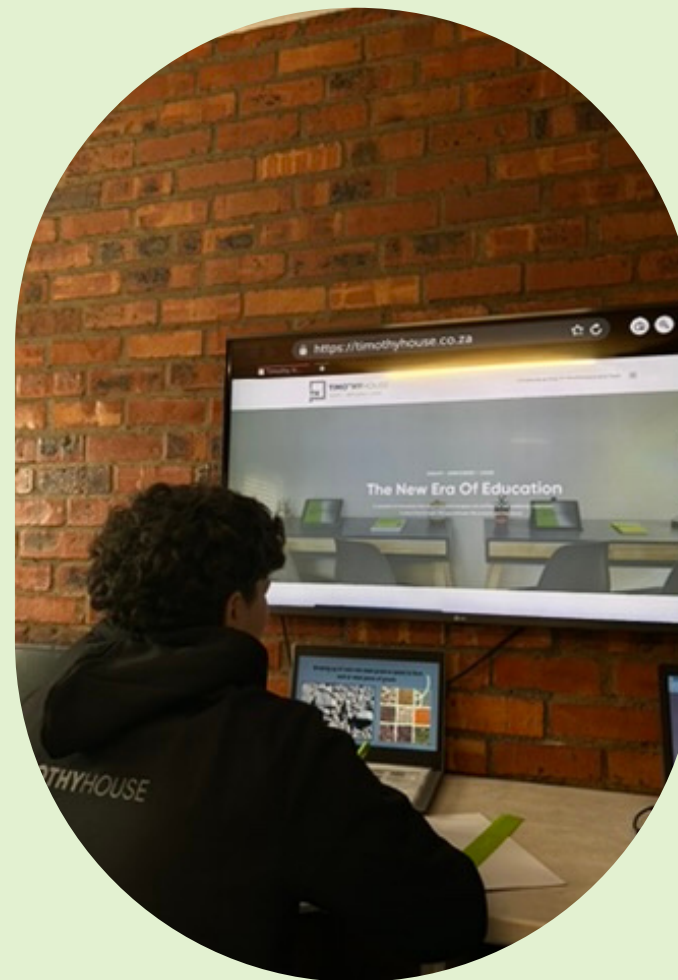

## THE NEW ERA OF EDUCATION

If the current climate has taught us anything, it is that change is constant, and what works well today may become obsolete tomorrow. In the same way, technological advancements of the Fourth Industrial Revolution have made the traditional approach to education irrelevant. As the world continues to change, it is crucial for the learning environment students find themselves in to change along with it.

We need to completely reimagine education.

Holistic and academic Support

## Our Teaching Philosophy

Drawing from leading theories and methodologies in education, we've crafted a dynamic educational ethos dedicated to nurturing our students' holistic growth. Rather than passive absorption, we champion active learning through collaborative problem-solving, an approach that transcends traditional teaching. Our educators employ a blend of teaching methods, favouring interactive techniques that cater to diverse learning styles. By minimizing static lecturing, we prioritize independent exploration and meaningful student interaction.

# Our Values

## Innovation

We encourage creative thinking and curiosity, pushing boundaries to solve problems. An open mindset helps students adapt and tackle challenges in a changing world.

## Holistic Leadership

We nurture well-rounded individuals who lead with integrity, empathy, and purpose, focusing on character, emotional intelligence, and community impact.

## Collaboration

We believe in working together to enhance learning and growth. By sharing ideas and supporting each other, we achieve more as a team than individually.

## Independent Learning

We empower students to take control of their education by setting goals, managing time, and using resources effectively, fostering self-discipline and confidence.

# Hybrid Learning

Our Hybrid learning model is designed to offer students the best of both worlds. The blend of live online learning and in-person support creates a balanced and adaptable educational experience. This model sets us apart because it not only caters to different learning styles but also empowers students to take control of their education.

## Key Features of Hybrid Learning:

- Live Online Learning
- Flexible Learning Locations
- Student Facilitators at the Hub
- Personalized Learning
- Flexibility and Independence

# 6 Student Reviews

## Grade 10 Student - Chloe

The school has really been such a blessing to me not only in an academic way but also mentally. It is truly such a good environment that teaches you how to grow, equip and empower yourself and others around you. They really pay attention to your mental health and the facilitators are always finding ways to help you academically. The founder has not only made things easy for us as students academically but also gave us a comfortable space to enjoy with our fellow students. This is why I will always recommend Timothy!

## Grade 11 Student - Amber

Timothy House is not just a school, but it is a safe haven for any new family member. Our school caters to academic excellence as well as the emotional well-being of our students. I can testify that this is indeed the truth. I discovered a new part of me, I became an academic machine due to the never-ending support, love and motivation that I have received from this amazing school. I grew confident in not just myself but my schoolwork as well.

## Grade 9 Student - Benjamin

Timothy House is probably one of the best schools I have applied to and gone to. The people and Marlon are some of the most supportive people. They are always checking-in and making sure one is comfortable with the work. They do their best to ensure you understand too. Without this school, I would've been lost in public school falling behind and in big classes where the teachers can't help you individually. When I joined Timothy House for the first time and went into the Hub, they made sure I was not alone and could ask for help with smiles on their faces.

## Grade 8 student - Seth

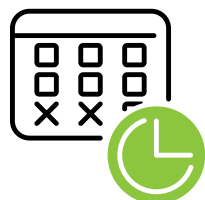

Timothy House is the best school I have been too. The teachers are very kind and supportive, you can ask them anything. Everyone is very positive and encouraging. The curriculum is challenging and rewarding.

# Technology Requirements

## UPS and Battery

This should be able to provide you with at least 6 hours of power, especially during a power outage.

## Operating System and Software

Windows Version 10 or higher or Mac OS 10 or higher. We provide you with all the Microsoft Office applications when you enroll with us.

## Device

You will need a smart device with web camera. Although we recommend using a laptop or desktop computer. Make sure that the device that will be using has at an i3 processor, 4MB RAM, and 128GB of storage. Headset is needed.

## Attendance Expectations

Attending all online classes and have camera on. A headset is also required at all times

# OUR GRADUATE ATTRIBUTES

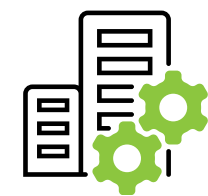

Industry leaders who possess strong inter- and intrapersonal skills (understanding others and knowing themselves).

Lifelong learners who are inquiry-focused critical thinkers

Innovators who are socially and culturally aware, with the ability to engage across race, class or culture.

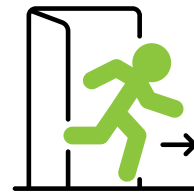

Thought leaders who are effective communicators.

# Why Timothy House?

## Safety & Accountability

The ability to choose between the Hub and home gives students the freedom to manage their time and learning environment, fostering independence and responsibility.

## Student Preparedness

Effectively prepares the student for university life

## Hub Environment

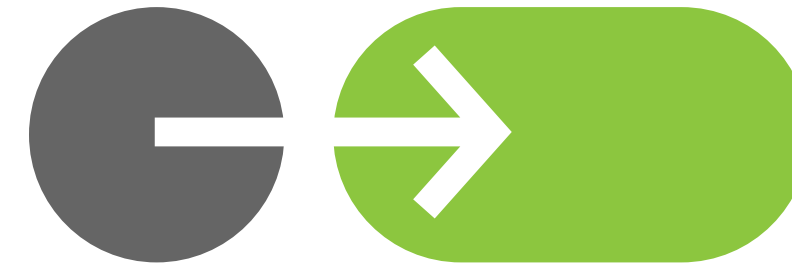

Educators are actively involved in the student's learning, while studying in a stress-free and comfortable environment. Our educators provides accountability, support and structure for the learners

## Offers Independance

- Students learn at their own pace
- Students learn independently at the Hub under supervision
- The student learns discipline, and is responsible for their own work

# CREDITATION

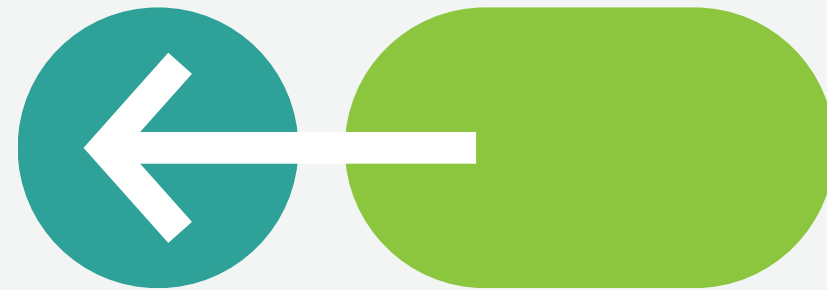

At Timothy House, we proudly offer a robust and comprehensive educational program rooted in the South African CAPS (Curriculum and Assessment Policy Statement) curriculum. We register all our students with Campus of Things (pty) Ltd which is registered and accredited. They are our Service provider.

Our programs cater to students from Grade 4 through to Grade 12, ensuring a seamless and cohesive learning journey from early childhood education to the threshold of higher education and beyond.

This accreditation ensures that our students receive a high-quality education that meets South African national standards through the CAPS curriculum.
